Vi vil rigtig gerne tage dig med ind, hvor eksperimenterne foregår og lade dig være en del af udviklingen af vores smage - og ikke mindst udfordre dig. Vi har stor respekt for kvalitet og økologi - og bruger meget tid på at udvælge de helt rigtige ingredienser, som vi topper vores pizzaer med.

Vores mel er økologisk og stenmalet på Antico Molino Rosso, en meget anerkendt Italiensk mølle. Vores parmesanen er hentet hos vores foretrukne leverandør i Italien - ligesom vi også selv importerer op mod 1 ton gourmet mozzarella om måneden sammen med vores tomater, forskellige skinker og pølser. På den måde sikrer vi, at vi får den mest autentiske smag!

We want to transport you to where the experiments take place, and immerse you in the development of our complex flavours - and not least to challenge you. We have great respect for quality and organic produce - and spend a large amount of time selecting just the right ingredients to top our pizzas with.

Our flour is organic and stone milled on Antico Molino Rosso, an acknowledged Italian mill. Our parmesan is picked up at our preferred supplier in Italy - we also import up to 1 ton of gourmet mozzarella ourselves a month, together with our tomatoes, hams, and sausages. This way we ensure we get the most authentic flavour!
